

Juan Mondragon

Product Designer & Builder

San Francisco Bay Area

juansjsu@gmail.com

Product Designer with 11+ years at LinkedIn, leading design across sales, talent, and content platforms. I've shaped systems that empower teams to publish faster, plan smarter, and connect through AI-driven tools like Seller Agent. I bring a user-centered, data-informed mindset to solving complex product challenges at scale.

EXPERIENCE

Product Designer & Builder (2025–Present)

- Designing and building AI-powered web and iOS products from concept to production-ready prototype, combining product strategy, UX, visual design, prompt design, and front-end implementation.

Product Design at LinkedIn (2014–2025)

- **Senior Product Designer on Sales Solutions (2022–2025)**
Led end-to-end design across LinkedIn Sales Navigator and Sales Insights, creating scalable workflows for sellers and sales operations teams. Co-defined early Seller Agent concepts that informed LinkedIn's AI-agent direction, and designed Sales Insights planning experiences that helped sales leaders assess markets, prioritize accounts, and forecast with greater confidence.
- **Product Design Lead - Productivity Solutions (2020–2022)**
Managed a 3-person design team building content creation, publishing, and localization workflows across LinkedIn that reduced manual Help Center operations and enabled faster multi-market content launches.
- **Senior Product Designer - Talent Solutions (2018–2020)**
Led design of Pipeline Builder to enable organizations to build targeted pipelines of interested candidates for high priority, high volume, or hard-to-fill roles. Enabled Talent Brand Managers to attract and measure ROI, and helped Admins customize their presence on LinkedIn with Career Pages.
- **Product Designer - LinkedIn Company Pages (2016–2018)**
Shaped design of Company Pages, both admin and member experiences across free and paid tiers. Launched LinkedIn's first company review experience, to help job seekers assess fit.
- **Product Designer - Sales Solutions (2014–2016)**
Designed Admin and Integration experiences that enabled CRM and Gmail integrations, scalable team management, and enterprise adoption. Launched Social Selling Index and growth initiatives, shaping core product direction through research, prototyping, and cross-functional collaboration.

UX Design Intern at LinkedIn (2013)

- Designed a product directory for LinkedIn monetization products to improve discoverability and navigation.

UX Design Intern at thredUP (2012)

- Designed Android shopping flows and print collateral to support thredUP's mobile app launch.

SKILLS
